

Culinario - substructure

Individual solutions with handy storage space where it's needed

From cover panels to bespoke compartmentation

The supporting furniture for our Culinario sales showcases offers an ideal solution for any requirement, with custom-made panels and interior divisions to suit your concept. The base constructions may be open on all sides or covered, with or without doors. Various panelling versions are available from Beer Grill, and you also have the option of having the supports prepared for cladding with specially made panels.

The base compartmentations of the Culinario range provide handy storage space for accessories, plates, napkins and lots of other items. The utensils you need are always at hand, safely stored and protected from damage. The inclusion of a hot cabinet in the base structure is also possible. The system bases are made completely of stainless steel and thus easy to clean and maintenance-free.

Your advantages:

- ❑ Optimum use of available space
- ❑ Variable compartmentation of the base units possible
- ❑ Open on all sides or alternatively clad with various types of panels
- ❑ Optionally available with hinged or sliding doors (from GN 4/1 and larger)
- ❑ Mountings for special panelling (e.g. wood) available on request
- ❑ Bases also available with casters
- ❑ Handy and safe storage for accessories
- ❑ Less risk of breaking glasses due to integrated glass drawer
- ❑ Order on the counter gives you more work space
- ❑ Practical shelves, guide rails for push-in trays, drawer compartments and hot cabinets may be incorporated into the base units
- ❑ The system bases can be extended at any time
- ❑ Bases available finished in RAL scale colours to suit your design concept
