

BEER WARMING PLATE

Keeping warm in style

Easy-to-use, high-quality and solid

The fantastic warming plate from Beer Grill has been given a new look. What has changed? The scratch-resistant surface made of tempered glass with an anti-slip studded structure. These two attractive features mean that slipping containers and annoying and unsightly scratches on the surface are definitely a thing of the past.

Of course, the new BEER warming plate has the same unbeatable features as the old one.

Unlimited flexibility, the surface temperature can be set continuously from 30 °C to 90 °C, uniform heat delivery across the entire glass surface, easy to clean. The rugged stainless steel housing also makes the BEER warming plate ideal for use at buffets, sales counters or in catering.

Your benefits

- ❑ Scratch-resistant surface made of tempered glass, optionally in black or white
- ❑ Anti-slip studded structure
- ❑ High-quality, easy-to-clean presentation surface
- ❑ Rugged stainless AISI 304 steel housing with integrated glass-edge protection
- ❑ Continuous surface temperature setting from 30° to 90° C
- ❑ Guaranteed uniform heat delivery
- ❑ Energy-efficient thanks to innovative heating technology
- ❑ Compact dimensions, only 45 mm high
- ❑ Cable connection on the bottom side
- ❑ Modular design enables the combination of several units side by side
- ❑ Also available as a built-in model
