

EasySlide System

EasySlide – quick and easy

Maximum comfort even during rush hours

In businesses where there's a great crush at the self-service counters with the showcases full of temptingly smelling dishes at lunchtime it's important that the dispensing stations can be easily replenished by the personnel to assure continuous smooth service during the rush hours.

Beer Grill's novel EasySlide System is the ideal solution in this situation, providing optimum support for your work flows. The EasySlide dry frame serves as the carrier module that accepts GN trays of various sizes up to a depth of 150mm. The sophisticated design of the new EasySlide dry frame allows effortless opening with only one hand, enabling comfortable loading of the showcases – really a great relief when handling heavy GN trays!

EasySlide combines comfort and functionality, giving you more time to focus on your basic task: Perfect goal-oriented and thus successful presentation of food resulting in maximum turnover at the point of sale.

The EasySlide System is designed for cleaning in the dishwasher and is compatible with all Beer Grill Culinario showcases. Existing equipment can be easily updated to the new system at any time.

Some features:

- Simple and easy to handle
- Compatible with all Culinario food showcases
- The carrier module that accepts GN trays of various sizes (separating strip included in the scope of delivery)
- Existing showcases can be updated to the EasySlide System at any time
- All parts can be cleaned in the dishwasher

EasySlide System

Culinario with the new EasySlide System.

Quick and easy opening of the EasySlide dry frame.

Functionality:

The included separating strip is easy to remove for use with GN 1/1 or GN 1/2 trays.

The EasySlide dry frame can be removed without effort and cleaned in the dishwasher.

EasyFill water basin

EasyFill - functional and ergonomic

More time for your essential tasks

Beer Grill's newly developed EasyFill water basin is optimised for the users' requirements and their individual workflows. The water basin's innovative design allows simplest filling directly in the showcase, without having to remove the accessories from the basin.

We guarantee you will enjoy streamlined faster workflows with the EasyFill water basin and its optional filling funnel because you will spend less time filling your water basins and thus gain time for your essential tasks.

The water basins are made completely from CNS V4 stainless steel and come in the sizes from GN 1/1 to GN 3/1. For even more comfort and functionality, Beer Grill offer the EasyFill basins with an additional drain valve for easy emptying.

EasyFill filling funnel

The matching specially developed EasyFill funnel is the perfect complement for the EasyFill water basin.

The funnel fits exactly into the water basin's filler opening, enabling effortless practical refilling without holding the funnel.

Some features:

- Water basin for creating hot steamy climate
- Made completely from CNS V4A stainless steel
- Easy filling without removing accessories
- Compatible with all Culinario food service counters
- Available in the sizes GN 1/1 to GN 3/1
- Also available with drain valve
- Practical EasyFill funnel optionally available

EasyFill water basin

EasyFill water basin with closed filler opening

Practical filler opening with gate valve

Usage

The accessories do not have to be removed to use the EasyFill funnel

Versatile cutting board

Enjoy maximum of flexibility with the new multi-functional cutting board for your Culinario

The cutting board that ideally adapts to your workflows

Beer Grill's newly developed cutting board is designed to suit the needs and requirements of the individual employees and varying workflows. You can hang GN containers directly underneath the board, as space-saving storage for small amounts of sauces, cutlery or garnishes, e.g. herbs and lemon wedges.

Thus, you'll always have your utensils and ingredients readily at hand, without need for additional storage space. The practical cutting board available in various sizes is equipped with a flume and slides from side to side as necessary without effort. Our new versatile cutting board is your guarantee for quicker workflows and optimised space usage.

Easily attachable multi-function boxes

A rail for hanging containers is also mounted underneath the cutting board, allowing you to store paper bags, caterer's cups and napkins within easy reach but out of the guests' view. These containers come in different sizes.

The versatile cutting board's advantages:

- Movable cutting board with rails for attaching GN containers underneath
- Garnishings, cutlery, sauces and toppings, dabbers, etc., are always clean and ready at hand – no need for extra storage space
- Compatible with all Culinario food counters (also fits existing equipment)
- Rail for hanging multifunction boxes

Versatile cutting board

Dimensions versatile cutting board

Length	depends on the length of the counter
Depth	230 mm
Height	10 mm

Matching attachable GN containers

1/6
1/3
1/9

Level 1 – cutting board above the GN containers, etc.

The cutting board easily slides from side to side. Its integrated flume collects accruing juices and channels them aside so that your GN containers stay clean.

GN containers for practical and neat storage of utensils and ingredients such as sauces and toppings, garnishes, cutlery, napkins, etc. can be hung directly underneath the cutting board.

Level 2 – multifunction boxes, etc.

The practical hanging rail allows you to attach multi-functional boxes. These boxes come in various sizes and can be placed on two different levels.
